| 25-Nov-10 | SEAGA Conference (Special Geography Teachers' Symposium) |
| 26-Nov-10 | SEAGA Conference |
| 27-Nov-10 | Depart for Singapore |

Who should go?

This conference will be particularly useful to Geography teachers who are interested in knowing more about coastal processes and tourism issues in Hanoi, Vietnam, as well as teachers who are interested in updating their understanding of various geographical issues through the conference. The major focus of the conference will be on the environment and sustainability. A special teachers' symposium has been planned and this includes a special workshop on field-based teaching in geography, papers on teacher-led professional development, climate change education, and capacity building for sustainable communities.

More about the conference:

“Understanding the changing space, place and cultures of Asia” Hanoi, Vietnam

Changing space, place and cultures of Asia is the conference theme in 2010 and we are inviting multidimensional perspectives of this issue from scholars, policy makers and entrepreneurs as well as researchers and teachers. The aim of the conference is to advance the discourse on the issues of changing space, place and cultures in Asia, so as to inform citizens, enterprises and governments in their actions.

The following are some of the major sub-themes of the conference:

1. Changing Physical Landscapes in Southeast Asia
2. Living with Global Environmental Change
3. SE Asia and Environmental Management
4. Changing Population, carrying capacities and ecological footprints
5. Sustainable Development and Southeast Asia
6. Politics, policies and sustainability
7. Cities and sustainable development
8. Economic growth, competitiveness and sustainable development
9. Sustainability and Education
10. Field-based teaching in Southeast Asian geography
11. Remote sensing and GIS: their contribution to environmental management in southeast Asia
